Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments:

As per claim 1, 10, 18 and 22, Applicant asserts that the finality of the rejections should be withdrawn because the FINAL Office action has changed ground of rejection. Examiner disagrees because (a) the same references of Simon and Zubeldia are still kept and used without introducing any additional prior-art beyond the Non-Final Office action submitted on 11/17/2006 (b) It is also Applicant's responsibility to understand the entire teaching of prior-arts (not just the cited portions by Examiner in the Office action) (c) Examiner notes a "digital certificate revocation notification" is a data object (or a data entity) and thereby receiving a certificate revocation notification is quite different from the certificate revocation notification itself (for example - "receiving a book / a ticket" is quite different from "what is the book / the ticket itself").

Accordingly, Simon teaches "receiving a certificate revocation notification" does not mean Simon teaches the "certificate revocation notification" and as such there is no conflicts between the grounds of rejections that was argued by Applicants with regard to the wording of Non-Final (Page 2 / Last Para) and Final Office actions (Page 5 / Last 2nd Para). Examiner requests the Applicant to submit the formal written response according to the USPTO procedures and it will be taken from there for further decisions:
